

INEOS

GRENADIER

BUILT ON PURPOSE

Before you dive in, scan to see
a video of the Grenadier in action

INTRODUCTION

I've recently returned from an extended test of the Grenadier in South Africa and Namibia. The vehicles tackled the toughest of off-road terrain, from the Sani Pass in Lesotho, up the Skeleton Coast in Namibia, across the Kunene Dune Belt and through the Hartmann's Valley. I'm pleased to report that they were bloody good!

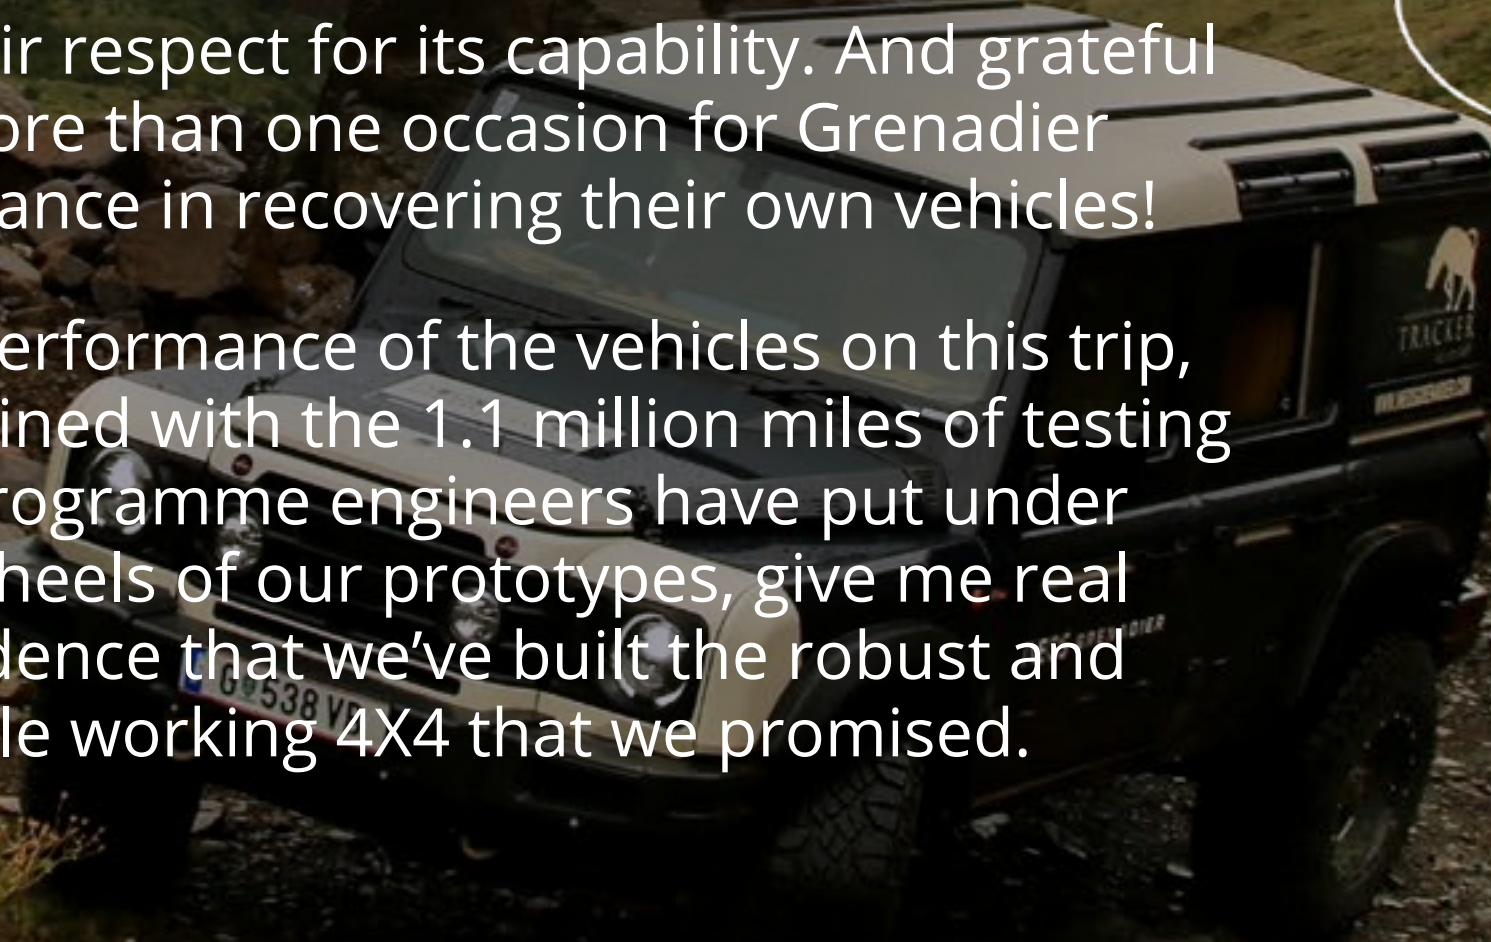

Rock, sand, corrugations, 50-degree heat, eight hours driving a day – they genuinely took it in their stride. You might say I'm biased, having lived the Grenadier project for the last five years, but the guides on the trip – seasoned off-roaders to a man – were united in their respect for its capability. And grateful on more than one occasion for Grenadier assistance in recovering their own vehicles!

The performance of the vehicles on this trip, combined with the 1.1 million miles of testing the programme engineers have put under the wheels of our prototypes, give me real confidence that we've built the robust and reliable working 4X4 that we promised.

You will be the real judge, when we start to deliver Grenadiers to customers later in the year, but for me it's got 'the right stuff' and is a joy to drive both on and off-road.

It's been quite a journey to get to this point, but I'm pleased now to be able to reveal full specifications, prices and options as we open the order books. And I look forward to seeing many of you behind the wheel yourselves in the months and years ahead.

Jim Rariffe

**BUILT FOR
EVERY DAY**

**BUILT FOR
WORK**

**BUILT FOR
OFF-ROAD**

**BUILT FOR
THE WILD**

**BUILT FOR
YOU**

BUILT FOR EVERY DAY

The Grenadier might be a rugged, reliable, uncompromising 4X4. But it's also so much more than that. It's comfortable. It's versatile. It's balanced to drive both on road and off. And it's designed to carry out whatever task your life throws at it.

So it's your family car, your holiday car, your weekend adventure car, the choice is yours. The 4X4 engineered for you to live with for many years to come.

KEEP GOING

TOWN AND COUNTRY

Gentle village roads, quicker country lanes, out and about in town. Whatever speed you're travelling, or road conditions you're driving on, the Grenadier is highly responsive, well balanced, and fun to drive. The award-winning straight-six 3.0L turbo **BMW engines** combined with the proven automatic **ZF transmission** give you the power and smooth multi-gear shifts to adapt effortlessly to any type of road. Tuned and calibrated together for great drivability and high-torque at low revs. You can tow what you need, from caravans to horseboxes. And with permanent four-wheel-drive, you can trust the traction in any conditions.

For those unexpected encounters, rely on the stopping power of the discs, pads and calipers of our **Brembo brake system**. Impressive, controlled performance that keeps you on the safe side. Progressive **Coil Springs** absorb those speed bumps and potholes. Added to the Grenadier's anti-roll bars and five-link suspension set-up you can be sure of sharp, confident handling on sweeping bends. Handling you can feel. From the steering wheel to the road surface.

KEEP GOING

GRAND TOURING

When you hit the highway, the Grenadier is a smooth, comfortable, and safe place to be. Cruise control on, a spacious and light cabin, supportive **Recaro seats** (heated if you need them). All combine to help you go the distance. Got little ones on board? **ISOFIX/iSize** keeps them secure, while the tough **Utility Trim** is really easy to clean.

Long drives give you plenty of time to appreciate the small things. Those little details that can make even the longest journeys a pleasure. Enjoy extra character with our **Saddle Leather Driver's Pack**. And add supple full-grain **Leather Trim** and **Carpet Flooring** for extra comfort. Whether crossing a continent, tackling a lengthy commute, or taking a long-anticipated family trip, the Grenadier's interior is a great place from which to watch the miles go by.

KEEP GOING

MOUNTAIN HIGH

The mountains are calling. You load the bikes, kayaks, climbing gear, skis. And head up the winding roads to adventure. With the commanding driving position, central instrument display and large mirrors, you enjoy excellent front and rear visibility. Constantly aware of other road users, and with a clear view of the scenery on the way up. You alert a group of cyclists with a friendly press of the **Toot Button**. The wet surface and slippery snow on the switchbacks are no problem with **Permanent Four-Wheel-Drive, ABS** and other electronic stability systems keeping you in charge at all times.

KEEP GOING

BRIGHT LIGHTS

Shops, cinema, restaurant, workplace. Wherever you're planning to pull up, make light work of heavy traffic with **ECO Stop/Start** and the automatic **ZF Transmission**. Have your favourite tunes on tap thanks to **DAB+ Radio**. And easily access podcasts and playlists with **Android Auto™** and wireless **Apple CarPlay®**.

Need to check where you're meeting friends? **Bluetooth connectivity** and voice control means simple hands-free calls. Need a shortcut? Find it using Waze, Google Maps, or whatever app you choose. Maps, media, phonebook – it's all at your fingertips via the multifunction steering wheel, the **Central Control System's** easy to navigate touchscreen, or the **Rotary Controller**.

When you reach your destination, slot the Grenadier into the tightest of spaces using **Parking sensors** (standard at the rear, optional at the front), and the optional **Rear-View Camera**. Then head off safe in the knowledge the standard alarm or **Advanced Anti-theft Alarm** and **Immobiliser** is protecting your vehicle, wherever you've parked.

KEEP GOING

BUILT FOR WORK

Tough, capable, durable, and built to last. Engineered to get the job done, in all weathers, and all terrains, year in, year out. Rest assured, the Grenadier is a working tool you can always rely on. Where you use it, how you use it, and what tasks you set it is down to you.

KEEP GOING

CONTRACTOR

No matter how tough the site or working conditions the Grenadier won't let you down. Durable anti-corrosion protection for the ladder frame with E-coat, powder coating and hot wax treatment. Unique **30/70 Split Rear Doors** for quick and easy access in tight spaces, or with a trailer attached. Want to keep muddy things separate? Stick gloves, ratchet straps, wellies, or anything else in the handy **Spare Wheel Lockable Storage Box**.

For 2,000 litres of loadspace in the Station Wagon, fold the **60:40 Split Folding Rear Bench Seats** flat. Thanks to the **Cargo Barrier** you can load right up to the roof without worrying about gear falling into the passenger compartment. The **Interior Utility Rails**, Tie-Down Rings and flexible **Cargo Management System** means everything has its place, so you can secure your kit and get on with the job.

KEEP GOING

WOOD FOR THE TREES

Whatever the task, the Grenadier is your off-road office. Designed to get dirty, so no amount of mud, dirt, or wet work clothes will stop you getting the job done. Clearly labelled, well-spaced buttons. The **Overhead Control Panel** keeping off-road switchgear out of the way. Tough, stain-, dirt-, and water-resistant **Utility Trim**. Strong optional aluminium **Access Ladder** to climb to the reinforced roof. Four **Roof Rails** to strap up to 150kg of kit up top. Four rubber **Roof Strips** that grip cargo and protect your paintwork. And 3.5 tonne towing capacity with **Trailer Stability Assist** as standard.

When the job's done, simply hose down the floor without worry thanks to the five drain valves and splashproof interior. The hard-wearing **Heavy-Duty Seat Covers** offer even more protection.

KEEP GOING

FULL RECOVERY

Whatever job you do, you need a 4X4 that won't let you down. For some, lives depend on it. That means durability and reliability is crucial. Comprehensive service schedule, remote parts delivery, off-grid technicians, and online INEOS HQ support. No matter where you operate, your Grenadier is always good to go.

Tailor yours any way you need to with **10- or 25-Amp pre-wiring** built in to easily add beacons, blue-lights, sirens, searchlights, and other exterior lighting. All switchable from the **Overhead Control Panel**. When the weather closes in, use the powerful **40-inch Lightbar** mounted to the **Roof Rack or Roof Crossbars**. When you need to, set about recovery with four heavy-duty **Towing Eyes**, and optional factory-fit, integrated, high-performance **Winch** for 5.5 tonnes of winching power.

KEEP GOING

BUILT FOR OFF-ROAD

Slippery, deep, rutted, rocky. Off-road terrain comes in many forms. So, you need a 4X4 that's up to tackling every eventuality. With the Grenadier you have it, with some to spare. From power, torque, and grip, to rugged beam axles and constant traction, it's engineered for wherever you decide to take it. The ground underneath you may change, the Grenadier's capability does not.

KEEP GOING

MUD PLUGGING

Slick or sticky, deep or boggy, you need to know your 4X4 can handle any surface. Our choice of **Bridgestone All-Terrain** or optional **BFGoodrich All-Terrain T/A KO2 tyres** means you're always prepared. **Permanent Four-Wheel-Drive** for reliable, instant traction. **ZF 8-speed automatic transmission** so you can keep your eyes on the trail and hands on the wheel. And seamless shifts to maintain momentum.

When the going gets really tough, drop the **Transfer Case** into low range and lock the centre differential. Still in a bind? Check the steering angle and torque being sent to each wheel on the **Central Touchscreen**. And flick the individual front and rear differential switches for a full, three locking diff set-up. All to keep moving even when only one wheel can develop traction.

KEEP GOING

DUNE BASHING

Taking on desert dunes is a true off-roading adventure. And for that you need the right tool. The Grenadier's traction control system takes shifting sand in its stride. Monitoring wheel slip and selectively applying brakes to regain traction. **Downhill Assist** keeps you on track on the way down. All the while, the **Raised Air Intake** is sucking in clean air to help keep your filters clear, and your engine running at its best.

Sometimes you'll dig in. Drop the tyre pressure and monitor them with the **TPMS** (Tyre Pressure Monitoring System) on the central touchscreen. Add mounting options for spades and sand ladders so you'll have all the tools you need, when you need them. When dusk approaches but you want to carry on, toggle on the powerful **LED Auxiliary High Beam Lights** to illuminate the way ahead.

KEEP GOING

A blue and red Land Rover Grenadier is shown from a low angle, climbing a steep, rocky hillside. The vehicle is tilted upwards, with its front end higher than its rear. It has a rugged, boxy design with a prominent front grille, large headlights, and a roof rack. The background consists of dry, rocky terrain with some sparse green vegetation.

ROCK SLIDING

Driving tough trails in a 4X4 takes commitment, grit, and skill. It also takes an off-roader that can handle whatever you throw at it. Tough, capable, engineered without compromise, and built to last, we've tested every aspect of the Grenadier in the harshest conditions. So you can get to grips with the roughest surfaces thanks to our rock solid **Two-speed Transfer Case**. A wheel at each corner that ensures short overhangs front and rear. Excellent ground clearance, approach and departure angles mean the steepest of slopes can be tackled with ease.

Strong, straightforward, coil sprung beam axles send power to the wheels for maximum wheel articulation and traction. Offering superior flex while maintaining grip to deal with the most uneven ground. The **Underride Protection** and **Rock Sliders** ensure all your Grenadier's essential components and bodywork stay protected.

Another pair of eyes is always helpful off road. The central touchscreen displays feedback so you're always sure of your surroundings. Need fewer distractions? Activate **Off-Road Mode** to disable engine Start/Stop, parking sensors and seatbelt reminder. Hitting deep water? Switch your engine fans off with **Wading Mode**.

KEEP GOING

BUILT FOR THE WILD

You've prepared for the trip. Plotted the route. Filled the jerry cans and stashed the kit. Time to start your Grenadier and put the plan into action. Overlanding in Utah or spotting the big five in the Serengeti. Heading into the wilds to ski a glacier. Peddling a mountain or paddling a lake. Catching some waves. The Grenadier will get you and all your gear there and back again. However remote the destination.

KEEP GOING

THE ROAD LESS TRAVELLED

Heading off the beaten track isn't just about the destination, it's about the experience of getting there. With the Grenadier you're all set. Simply load up your gear and go. Activate the **Pathfinder** navigation system and plot your own route, safe in the knowledge you're logging your journey, so you'll find your way back. A **Full-Size Spare Wheel** comes as standard too. Add the extra **Spare Wheel Bracket** on the **Roof Rack** to sling another wheel on the roof as backup for the backup.

There are loads of Roof Rack attachments, so wherever you're heading, you can strap on whatever you want. **Jerry Can Mount** and **Gas Bottle Holder** for your essentials, so when you find that far-flung beach or isolated lake, you're ready to set up camp.

KEEP GOING

ROOM, WITH A VIEW

Incredible wildlife. Spectacular landscapes. Memorable sporting moments. With seating for five and 1,100L of loadspace behind, pack the tripod, camp chairs and picnic box for the day ahead. And keep electronic items separate and safe in the **Underseat Dry Stowage**.

Parked up, chairs out, **Foldable Tailgate Camp Table** down, you open the **Vehicle Integrated Side Awning** for 270 degrees of shelter. Pop the **Safari Windows** out and there's a great viewpoint, perfect for cheering on the peloton during the Tour de France, watching wildlife, or checking out the surf. And if you do decide to head off into the wilderness on foot, keep valuables secure and out of sight in the **Lockable Central Stowage Box** for peace of mind.

Prototype vehicle image. Some features may not be representative of final vehicle specifications

KEEP GOING

HAUTE ROUTE

Ski touring, mountain biking, road bike climbs – when you need your mountain fix the Grenadier is ready. Winter or summer, simply load up your kit on the high strength, lightweight **Roof Cross Bars** and hit the heights. When the inside of the vehicle is full, stick extra clothes and gear in the weather-proof **Roof Mounted Cargo Box**. Or use the roof to attach your bikes using the **Roof Mounted Bike Carrier** or skis and snowboards on the **Roof Mounted Ski/Snowboard Carrier**.

KEEP GOING

GRENADIER X BELSTAFF

It's a story of momentum. For the launch of the Grenadier, we have teamed up with British outerwear specialist Belstaff, to bring two special editions of the vehicle – the Fieldmaster and the Trialmaster. Named after two of Belstaff's most iconic jackets, these no nonsense designs perfectly echo our own purpose-driven principles.

Founded in 1924, Belstaff has a rich history of developing products envisaged for both function and progress: Protective suits for race-car drivers so

they had the confidence to go faster. Windproofed smocks for Marines to help them weather any storm. Insulating clothing for mountaineers so they could venture further. They have long been the chosen outfitter for independent spirits: from Amelia Earhart and T.E. Lawrence to Marlon Brando.

Together, we share an appreciation of the journey there - wherever there might be.

The Grenadier, photographed on location with Belstaff in Reykjavík, Iceland.

KEEP GOING

THE TRIALMASTER

Cut from 6oz British Millerrain waxed cotton and featuring both a slanted map pocket and an ergonomic pivot shoulder for improved movement, the Trialmaster was created in 1948 at the request of professional Trials biker and Irishman, Sammy Miller. It remains a covetable classic to this day.

THE FIELDMASTER

Designed for life in the outdoors, the Trialmaster's younger brother has a roomier fit, cropped body and more modern, functional styling - perfect for a day's driving.

Moto racer John Lee competes in the Scottish Six Days Trial on his BSA C15 wearing his customised Trialmaster jacket, 1960.

KEY

Approach Angle	A
Departure Angle	B
Ramp Breakover Angle	C
Ground Clearance	D
Wading Depth	E

*Measured at kerb weight.
**Dependant on vehicle load.
Off-road driving requires advanced training and experience and may result in property damage and/or injury.
Always check vehicle, route and conditions ahead before proceeding.
Additional accessories may affect Exterior Dimensions and Off-road geometry.

LOADING CAPACITY

Station Wagon (5 Seat)

Petrol

Diesel

WEIGHTS

Gross Vehicle Weight [kg]	3,500	3,500
Kerb Weight (without driver) [kg]*	2,665	2,740
Maximum Payload (without driver) [kg]*	835	760
Dynamic Roof Load [kg]	150	150
Static Roof Load [kg]	420	420
Maximum Unbraked Trailer Mass (on-road) [kg]	750	750
Maximum Braked Trailer Mass (on-road) [kg]	3,500	3,500
Maximum Trailer Nose Weight [kg]	350	350
Gross Train Weight [kg]	7,000	7,000

LOADSPACE

Maximum Volume behind 1st Row [l]	2,035	2,035
Maximum Volume behind 2nd Row [l]	1,152	1,152
Maximum Luggage Length behind 1st Row [mm]	1,645	1,645
Maximum Luggage Length behind 2nd Row [mm]	799	799
Floor Length behind 1st Row [mm]	1,795	1,795
Floor Length behind 2nd Row [mm]	983	983
Loadspace Width (floor between wheel-arches) [mm]	1,064	1,064
Maximum Loadspace Width [mm]	1,268	1,268
Lift in Height [mm]	899	899
Loadspace Height [mm]	1,039	1,039

INTERIOR DIMENSIONS

Maximum Front Headroom [mm]	1,001	1,001
Maximum Rear Headroom [mm]	1,002	1,002
Maximum Front Legroom [mm]	1,000	1,000
Maximum Rear Legroom [mm]	774	774

*90% Fuel and all liquids (no driver).
Do not load vehicle beyond its intended capacities, note loading equipment on the roof may change the vehicles handling characteristics.
Before towing consult the Owner's Manual or your closest Retail Partner for more detail.

FINANCE AND PART EXCHANGE

Our retail locations are there if you need expert advice, a test drive or even prefer purchasing in person. Our Retail Partners are the knowledgeable, passionate people here to help. You can also find your nearest Partner with our [online map](#).

Ready to buy? Get customising through our [online configurator](#), where you will find all our options and accessories.

Upon completing your specification, a deposit will reserve your build slot. And you'll be able to explore finance and part exchange offers to pay the balance.

If you have a vehicle you would like to sell, use our part exchange calculator to see what it's worth. Add this to your deposit in our finance calculator and you can see what your monthly payments might look like. We offer both personal and business purchase plans.

For more information, visit our [how to buy](#) webpage.

KEEP GOING

SERVICING

Regular 12-month servicing will be provided by our Retail Partners. It's our aim to have most customers within 100 km of an accredited workshop, servicing and repairs.

We know you might want to do some work yourself though and have made the vehicle easy to work on inside and out. From the Owner's Handbook to online manuals with step-by-step 3D imagery, servicing and maintenance is straightforward. Further technical support is also available from INEOS HQ.

WARRANTY

Durability and reliability are core to the Grenadier's DNA. We're confident in the engineering and we've proven the vehicle's capability and quality over 1.8 million kilometres. Backed up by our comprehensive warranty package.

Overview	
Manufacturer's Warranty	5 Years*
Whole Vehicle Anti-perforation	12 Years
Accessories	3 Years

PARTS

Customers that depend on their Grenadier can't afford costly downtime. So we are aiming for 48-hour delivery in major markets, thanks to a central logistics centre, regional hubs and logistics partners.

*Capped at 100,000km

KEEP GOING

Written and visual depictions (including photographs, CGI and colours) of the vehicle within this brochure may vary from production models and are subject to change without notice.

The development of the Grenadier has not been finalised, as such INEOS Automotive may make updates to the product offering including specifications, options and accessories. As such, quoted specification, options and accessories in the Brochure are not final and definitive. All details which are provided should be considered only as an indication, and may not reflect current specifications or availability. Details provided do not constitute an offer for the sale of any particular vehicle at any particular price or specification. Consult your closest Retail Partner for more detail.

Optional features, accessories and their availability may differ by vehicle (bodystyle and powertrain) and country or require the installation of other features in order to be fitted. Note that some standard features may be replaced when specifying a vehicle or selecting trim levels. Please contact your local Retail Partner for more details or configure your vehicle online. Warranty periods offered by INEOS on certain features may be limited and differ in duration. Please refer to the INEOS Automotive Manufacturers Warranty Terms and Conditions for details of variations and exceptions.

With ongoing development of the vehicle, the exact performance (including emissions and consumption performance) is not yet set. All models have been tested in accordance with the NEDC and as such all L/100km and CO₂ figures quoted are full NEDC figures. NEDC figures may be adjusted for the final vehicle and according to specification.

The CO₂ emission (Diesel – 248g/km, Petrol – 293.3g/km) and fuel consumption (Diesel – 9.5l/100km, Petrol – 13l/100km) figures quoted by INEOS are Combined Cycle estimates. The low figure from a base vehicle with no options. Passenger vehicles are tested with 15% of payload. These figures may not reflect real world driving conditions, which will depend upon a number of factors including variations in weather, driving styles, vehicle load and accessories fitted (post-registration).

Final CO₂ emissions figures and resulting associated pricing will be confirmed by INEOS Automotive or your selected Retail Partner prior to order confirmation. Tests will be performed in accordance with legislation in force at the time of type approval.

Additional options offered for the vehicle may affect performance, emissions, exterior dimensions and off-/on-road geometry. Loading equipment on the roof may change the vehicle's handling characteristics and users should not load the vehicle, any options or accessories (or any part of them) beyond their intended capacities.

Off-road driving and use of related equipment (including options and accessories) requires advanced training and experience. Improper use of the vehicle or other equipment may be unsafe and could result in property damage and/or injury to users and/or other parties. It is the user's responsibility to check the vehicle, equipment, route and conditions ahead before proceeding. Consult the Owner's Manual, applicable accessories manual/instructions or your closest Retail Partner for more detail.

The Utility Belt option has restricted usage on-road, dependant on local laws.

Only use in-car features when safe to do so. Driving while distracted can result in loss of vehicle control, damage to property, injury or death. Always obey local laws and speed limits.
